Detailed description of the problem to be solved by the Senior Expert:

School offers the following areas of professional education: Operator technician computer technology 7 class, Automation technician 1 class, Electronics technician 1 class, Electric installation Technician 1 class, Mechanical technician for maintenance and repair 1 class, CAD Designer technician and Auto mechanic 7 class.

Nowadays the school confronts itself with problems about modernizing and efficientization of the vocational training, and their alignment with European Practices and European Integration. They want to have a strategic plan taking all those problems.

Assignment target:

 FIELD: **Electrotechnics, Electronics, Automation**

It is expected that the senior expert familiar with vocational training in the electronic/electrical field in Germany will introduce advanced training methods and techniques to the teaching staff at the school in Botosani in accordance with with new EU requirements.

 FIELD: **Mechanical**

The support of the Senior Expert is requested to improve the vocational training in the mechanical field and to introduce advanced training methods and techniques in accordance with new EU requirements. The participation of Mr. Bruno Weissengruber as the SES representative would be considered an honour and a great opportunity for the school to relate the new project with the two previous ones developed with SES, in which we have collaborated with Mr. Weissengruber.

 FIELD: **Operator computer technology**

We would like the expert to make an accurate analysis regarding the level of our supplies, we also expect the expert to make proposals of modernization, regarding the spaces dedicated to these specializations, and, if the case, donations of materials and teaching equipment. Not only our students but also our teachers would like to get into touch with the German technical specializations by making some observation visits and by sharing experience.

Professional qualification required of the Senior Expert:

We expect the experts to be qualified in the Electronics, Electrotechnics and Automation field, Mechanical field and in Computer technology field especially in the practical side.

 Patrona ROTARIU
 (ROMÂNIA) - BOTOȘANI

Zarva, agitație și oaspeți ași se poate descrie atmosfera de ieri la amiaza de la sediul Inspectoratului Școlar Județean (ISJ). Motivul vizita unor experți seniori din Germania veniți la Colegiul Tehnic „Gh. Asachi” din municipiul Așteiaș sau fost însoțit la sediul ISJ de Cătălin Flaut, președintele municipiului și Georgina Popescu, directoarea colegiului. Colegiul Tehnic a început colaborarea cu Organizația germană non-profit „SES - Senior Experten Service” la invitația și cu sprijinul direct al ISJ și consiliului local. Bruno Weissengruber și Hans-Hilmar-Kornier au fost prezenți la Botoșani și au participat la diverse activități de instruire. „Cu fost director de școală tehnică și membru al echipei manageriale al firmei Man Austria știa că de înțeles este ca într-o școală tehnică să existe o bază materială competitivă. Am adus la Gh. Asachi un conștient pentru instruirea practică și trei mașinări noi. Am stabilit și convenit ca pe viitor să stabilim o legătură strânsă cu unitatea de la Botoșani”, a declarat Bruno Weissengruber. Reprezentanții ISJ sunt de acord cu faptul că între școala și agenții economici trebuie să existe o legătură strânsă, nu numai de instruire. Agenții economici trebuie să se implice și prin finanțare, bunuri pentru dezvoltarea și progresul de perfecționare facute la școli la cererea agenților economici. „La noi școlile vin la schimb sistemul educațional. Durata acestor programe este de trei ani. Este un pas înaintat pentru educația practică și elevilor. Acesta schimb este important, iar domeniul primar este școlii profesorii și învățătorii și beneficiarii școlii cu reprezentanți ai părinților botoșani”, a declarat Florin Negrescu, Inspector școlar general în cadrul ISJ. Președintele municipiului a declarat mulțumirea de materialul și munca depusă de cei de la Colegiul Tehnic, dar și de celelalte școli care accesează programe cu bani de la Uniunea Europeană. Acesta recunoaște că sînt și școli școlare care nici nu au

...monii de aceste proiecte cu care nu pot să le facă. „Faptul că sunt școli care fac proiecte competitive care aduc bani în educație este un lucru care ne ajută și pe noi, pentru că bugetul local micuțuț nu ne este suficient pentru dezvoltarea necesară în școli și grădinițe. Dacă nu ar fi proiecte ca cel de la Colegiul Gh. Asachi primăria ar mai scurta de o grădiniță”, a spus Cătălin Flaut. Alături de Colegiul Tehnic au mai reușit să acceseze astfel de proiecte încă opt unități școlare atât din mediul rural cât și urban.
